

Sheridan School District

Chromebook User Agreement

Revised March 2020

Purpose of Agreement

The purpose of this user agreement is to provide the most relevant information needed to manage and use the Chromebook. For a more extensive view of our policies please see the Sheridan School District Device Acceptable Use Agreement. The first goal of providing these devices is to ensure equal access for all students. When all students have a Chromebook, it allows educators and administrators to share information knowing that everyone has access to the same tools. The second goal is to educate and prepare our students to excel as lifelong digital citizens. Students will be expected to interact with teachers and with each other, in various educational settings, utilizing technology. Our expectation is that students, through meaningful application, will develop a high level of proficiency and be increasingly able to use the devices in a professional manner. These devices are extremely powerful tools which, when used appropriately, allow users to become better consumer and publishers of knowledge. The devices have many uses in educational and artistic fields. We encourage students to be innovative and creative in using Chromebooks for the purpose of learning while minimizing the consumption of data for social and/or personal reasons or purely for entertainment.

I am aware of the educational benefit of using an electronic device that has been issued to me by the Sheridan School District. The device issued to me is to be used for educational purposes only. I agree to take appropriate care of my device and its accessories so it can be returned at the end of the school year to avoid replacement costs. My parents have shared the user SSD Device Acceptable Use Agreement and I will follow the guidelines within that document or face restricted access. I understand that it is imperative that I conduct myself in a responsible and ethical manner while using and caring for the Chromebook assigned to me.

Receiving the Device

Devices will be distributed this school closure. All parents/guardians will be required to read and sign the ***SSD Device Acceptable Use Agreement*** before a device can be issued to their student. ***Parents & Students must sign and return the Device Policy Sign-off located at the end of that document and Sheridan Chromebook User Agreement before the Device can be issued to their child.***

Using the Chromebook

At Home:

Please remember to log-off and on in order for sites to be unblocked at home. All students are required to take their device home each night for charging. It is recommended that students not carry the charger to school. Please remember that our monitoring software works in and out of school. Inappropriate use of your device could result in SSD requesting the return of the Chromebook.

Please note that the prices listed for students are not the actual cost to the district. The district helps supplement the cost in order to keep them from being a burden to families.

	Cost to Student
Cost of battery replacement	\$25.00
Cost of trackpad replacement	\$35.00
Cost of replacement charger	\$20.00 - \$40.00 depending on model
Cost of replacement keyboard	\$70.00
Cost of replacement screen	\$100.00
Cost of lost or stolen device	\$125.00
Cost to replace device that is not returned	\$225.00
